The charge for the depreciation commences from the date on which the assets are put to use up to the date of their disposal. Where parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items of property, plant and equipment.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each financial position date. Where the carrying amount of an asset is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount.

Gains and losses on disposal of property, plant and equipment are determined by reference to their carrying amount and are taken into account in determining operating profit.
